## UV COUNTERFEIT DETECTOR

### IDENTIFY BILLS' UV SECURITY FEATURES

Every modern bill has integrated UV security features that only show up under ultraviolet light at a certain frequency. The Safescan 50 is designed specifically to help you verify these features and identify potentially counterfeit bills. The Safescan 50 not only reveals the integrated UV security features in modern bills; it also instantly illuminates the UV security features built into today's credit cards, passports and other ID documents, as well as UV ink applied to protect valuable items from theft or confirm event admission.

- Powerful 9W UV lamp
- Suitable for all currencies
- Verifies credit cards, passports and other ID's
- Verifies the UV features in bills
- With reflector for extra powerful UV light quality
- With warm start technology for 3 times longer lamp life
