

# Bench lite

When your fit-out is limited by space or budget, you can rely on Bench Lite to fit in perfectly. With the same sturdy metal fixings and durable surfaces as its big brother, Bench Lite delivers great performance with a lower cost.

Designed to deliver effective, frill-free desk space to any size of office, Bench Lite is an all-rounder that's bound to please. Flexible enough to use individually

or in clusters to let teams work together, virtually any space can be made productive.

Bench Lite is available from stock and quick to deploy into your workspace. Guaranteed for ten years and quick to construct with single-tool fitting and pre-drilled tops.

Bench Lite. Ready when you are.

**A straight forward, frill free, economical bench**

360cm wide Bench Lite, seating 4 users at a single 180cm desk top each. Featuring a recessed leg and work surface scallops or 80mm diameter cut outs. Ideal for multi uses in one space, touch down, focus and teams.

*Shown in maple melamine with scallop detail, a silver frame & the Seren chair.*

**Build and build**

Just because Bench Lite is frill free, it doesn't mean it's not capable of filling your space, it can extend to any length you choose, with a recessed leg, movement along Bench Lite is no different from any other bench product.

*Shown in white melamine with 80mm cable port cut outs, a white frame & the ARA chair.*

*Shown here in white melamine, a black frame & the Spira chair*

*Shown here in maple melamine, a white frame & the Spira chair*

- 7 Screen accessories

### **Assurance of supply**

20,000 workstations are available immediately from stock. This underpins our unbreakable, personal promise: we will deliver on time, at the time agreed, and that your furniture will be snag free.

Forty years' experience in the interiors industry has taught us that, sadly, promises are sometimes broken as easily as they are made. That is why we invest so heavily in our plant, our processes and our people; so we may keep our promises. Without exception.

### **The environment**

An in-house environmental team have reduced our energy consumption, increased our recycling and developed a furniture-recycling programme.

Our company and our people are socially and ethically aware, mindful of equal opportunities, engaged in charitable activities and always keen to give back to the community.
