

Benchmark

Versatile desks, built for life, elegant in form, flexible in function, well made, solid and strong.

An idea refined and redefined - with metal-to-metal fixing throughout for undisputed strength and with tough no-nonsense surfaces.

Real-world workplaces. Flexible, adjustable, and infinitely practical with comprehensive cable

management. Perfect for teams and individuals - for spreading out and for coming together.

Bench is dependable, durable and distinctive, a practical solution to the way we office work today, adaptable to change yet timeless in design. Frill-free but finely detailed, Bench becomes whatever you need it to be, wherever you need to be.

Versatility begins...

360cm wide Bench, seating 4 users at a single 180cm desk top each. Featuring a cable managed recessed leg, cabling runs from floor through the under desk tray and to the work surface via scallops or 80mm diameter cut outs. Ideal for multi uses in one space, touch down, focus and teams.

Shown in oak melamine with scallop detail, a silver frame & the Seren chair.

...and continues

360cm wide bench, now seating 6 users at a single 120cm desk top each. Featuring a cable managed recessed leg, cabling runs from floor through the under desk tray and to the work surface via scallops or 80mm diameter cut outs. This bench arrangement, whilst taking up the same footprint as above can increase your capacity by 50%.

Shown in maple melamine with 80mm cable port cut outs, a silver frame & the Seren chair.

Creative space

540cm long, ideal for agile working environments, the cable managed recessed leg provides comfortable collaboration by creating free movement along the bench. Your work space is quickly diversified.

Shown in walnut melamine with scallop detail, a reverse waterfall edge detail, black frame & the Spira Plus chair.

Get focused

540cm long, up to 6 users, again the cable managed recessed leg provides comfortable collaboration by creating free movement along the bench or more space for under desk pedestals. Divisional screens provide privacy and a place to hang accessories.

Shown in white melamine with 80 mm cable port cut outs, a white frame & the ARA chair.

Feature rich

Assurance of supply

20,000 workstations are available immediately from stock. This underpins our unbreakable, personal promise: we will deliver on time, at the time agreed, and that your furniture will be snag free.

Forty years' experience in the interiors industry has taught us that, sadly, promises are sometimes broken as easily as they are made. That is why we invest so heavily in our plant, our processes and our people; so we may keep our promises. Without exception.

FIRA Gold Standard

Our products are FIRA Gold certificated, an independent scheme widely regarded as a best in class. It means you can specify our products with complete confidence, knowing that they are proven to all necessary and applicable standards. Standards maintained through annual, third party, auditing.

The environment

An in-house environmental team have reduced our energy consumption, increased our recycling and developed a furniture-recycling programme.

Our company and our people are socially and ethically aware, mindful of equal opportunities, engaged in charitable activities and always keen to give back to the community.
